**Subject:** UNUSUAL ODOR ON FOURTH FLOOR OF ADMIN BUILDING

**Importance:** High

As an update on the unusual odor experienced on the 4<sup>th</sup> Floor of this building, as you may know, the County has taken several measures in response to the complaints. We have issued a HAZMAT response which included collecting air samples of the affected area. Additionally, the County has directed its environmental contractor to examine the area and to take additional air samples. To date, no source of the odor has been identified, much to the frustration of all of those involved in the investigation. Issues with the air and ventilation system have also been explored but have resulted in no further explanation. Please note, and remind your staff that the following actions will continue to be in place should the odor continue next week.

1. Contact my office as soon as you smell any unusual odor. Please speak to either Tricia Malcolm or to me. Do not call Jim McCrady of Risk Management directly.
2. I will ask any employee who does not feel well to be relocated to another floor within this building. We will work with you so that you have the tools you need to continue to do your job. This is a temporary move, until the problem is resolved.
3. Should you continue to feel ill, we will refer you to one of the County's medical providers. It is important if you continue to feel ill, and/or you wish to see a doctor, that you go to one of the County's medical facilities. You are not discouraged from seeing your own physician, however, a visit to the County's designated physician is also in order.

We will continue to investigate this matter next week, if it continues. Therefore, for the time being, until you hear otherwise from me, all employees, both on Floor 4 and on Floor 2 are asked to **refrain from using or spraying any products in the workplace that might interfere with our ability to isolate the odor and source of the problem. Please do not use in the workplace perfumes, cologne, after shave, deodorant, air freshener, scented hand sanitizer. You may use these products at home (e.g. you may wear perfume or cologne into work), but please do not spray or apply them at work. This is a temporary directive; you will be able to resume your normal habits once we are satisfied that the odor that has affected some people has been addressed.**

Thank you for your cooperation. Please see me with any questions or concerns.

**To:** Trish Ernst-Malcolm; Karen Dinsmore  
**Subject:** RE: Voice Mail

**Importance:** High

Thanks for calling for the VM – let me know when I can let staff know what is/will be happening. Over the weekend, I would like them thinking about/making a list of what they need to box up on Monday. I also want to give them the weekend to get settled into the idea of the move as a positive step to resolving the problem – rather than a shock causing more talk or grumbling because of the short notice.

I will be meeting with Melissa later this afternoon to discuss this. For now, I am leaning toward keeping the following people in the admin building:

Cheryl and Karen so they can have access to their files.

Louise to assist on the 2<sup>nd</sup> floor (plus she and Karen travel together.

Bob C and Bill for their parking convenience.

Bill/Bob can field calls for MH, Disabled, and general Planning/HS.

Karen/Cheryl can field calls for Alc/Drug, Alliance and general Planning/HS.

Either Daisy or Sarah should stay to have access to Edmunds and Abra if we are there for any period of time . . . or one person can come back here during the day and do in-put as needed.

If we go to the college and they close on Friday, if it is permissible, a compressed work week could be offered such as 8-6 M,T,W and 8-5<sup>th</sup>. Anyone who can't extend their day could return to the admin building on Friday and work in a conference room using the laptops or sharing a computer/office.

Melissa and I could split up – one here and one at the other site, or if we both go, I would travel between both . . . whatever Karen/Frank's preference.

All Planning (Admin Building) staff –

Please see the message from Karen below.

If anyone notices the odor again when we return next week, please tell me immediately so I can let Karen know, as well as make arrangements for you through her office for medical care or temporary office relocation if needed. Also note the request to refrain from using sprays/products in the workplace that may interfere with identifying the problem odor. Thanks for your cooperation.

Trisha

Yes, I will, I will respond in email and call him. He sits on the Jail side of the building, across from Anna Kazmierczyk and close to Elena Martinez. I just got off the phone with Trish Stone, there was another "odor" employees noticed. Both Jim Mc Crady and the outside contractor are currently on the floor. She requested to move two employees out of the office, Linda Kosinski and Chris Ann Wright. I am making arrangements to relocate them to the 2<sup>nd</sup> floor now.
